New Mexico Department of Transportation
Transit & Rail Division

A Message from Michael R. Sandoval, Cabinet Secretary, New Mexico Department of Transportation

New Mexico is a beautiful, large state. We have a combination of urban and rural transportation needs to meet. Communities, activities and amenities can be spread out, making mobility more important than ever. As Cabinet Secretary, one of my top priorities is ensuring visitors and the people of New Mexico can rely on safe, affordable public transportation throughout the state.

The New Mexico Rail Runner Express Train Service, carries thousands of passengers each week. The service significantly reduces traffic congestion during the busiest commuting hours. NMDOT's Park and Ride Intercity Bus Service provides 11 routes and makes more than a hundred individual bus runs each weekday. Overall, the Public Transit Service in New Mexico covers 29 of our 33 counties, reducing thousands of tons of carbon dioxide emissions and millions of gallons of fuel consumption every year.

The ability to travel from place to place vastly improves our quality of life. NMDOT is committed to connecting people from location to location. Be it bus or train, our well-integrated network of travel options, provide vital lifelines to many. In addition to thoroughly informing the public of their alternative modes of transportation, this guide also highlights some important federal guidelines we follow for seniors and individuals with disabilities.

I am honored to be a part of connecting people to their destinations in our great state and enhancing the many transportation options our NMDOT Transit & Rail Division has to offer. I invite you to browse through this guide and I hope you enjoy your next trip.

Sincerely,

A handwritten signature in black ink that reads "MRSandoval". The signature is written in a cursive, slightly stylized font.

Public transit is important to the vitality of individual communities and to the state as a whole. Many people are transit-dependent- they do not own or cannot operate a private vehicle because of their age, physical or mental ability, or financial status. They depend on public transit to access jobs, businesses, shopping, recreation, childcare, and medical and educational facilities.

Other people are transit riders by choice. Although they may be able to operate and afford a private vehicle, they choose to use public transit to help the environment, to reduce personal stress, to minimize their impact on air quality, to reduce wear and tear on their vehicle, and/or to save money.

This publication describes the public transit services offered in New Mexico and information regarding each of the transit providers. Persons needing transit service or more detailed information should contact these providers directly.

New Mexico Department of Transportation

The Transit & Rail Division of the New Mexico Department of Transportation (NMDOT) administers NMDOT Transit & Rail programs.

The Division:

- Supports the development of transit and ridesharing as viable transportation choices in New Mexico.
- Administers federal transit grant funding and programs and provides technical and coordination assistance to public and private non-profit public transit systems.
- Administers federal transit grants and planning funds used by the state's larger municipalities and MPOs for public transit-related programs.
- Manages the NMDOT Park & Ride intercity bus service.
- In cooperation with the Rio Metro Regional Transit District, manages Rail Runner service.
- Conducts and participates in Transit & Rail planning activities.
- Assists local governments to establish Regional Transit Districts (RTDs) and assists the RTDs to plan, coordinate and implement service.
- Administers the NMDOT's railroad grade crossing safety improvement program.
- Administers the permitting program for requests to allow infrastructure projects to cross or use NMDOT-owned railroad property.

Federal Transit Administration Grant Funding Programs

The NMDOT Transit & Rail Division administers various grants from the United States Department of Transportation's (USDOT) Federal Transit Administration (FTA) that supports both general and specialized public transportation programs in the state. These programs are named for the section of the federal transportation law that created them.

**Federal Transit
Administration**

Congress establishes the funding for FTA programs through authorizing legislation that amends Chapter 53 of Title 49 of the U.S. Code. On December 4, 2015, President Obama signed the Fixing America's Surface Transportation (FAST) Act, reauthorizing surface transportation programs through Fiscal Year 2020.

Statewide, funding is estimated to increase 7.8% from FY 2017 (\$49.5 million) to the last year of the FAST Act in FY 2020 (\$53.4 million). For NMDOT administered programs, funding will increase 6.5% from FY 2017 (\$14.9 million) to FY 2020 (\$15.8 million). See funding chart on page 4.

For more information about the following FTA grant programs, as well as others, go to: <https://www.transit.dot.gov/grants>.

Federal Transit Grant Programs

FTA Sections 5303 and 5304 Programs - Metropolitan and Statewide Planning

Provides funding and procedural requirements for multimodal transportation planning in metropolitan areas and states that are cooperative, continuous and comprehensive, resulting in long-range plans and short-range programs of transportation investment priorities. Eligible activities include development of transportation plans and programs, planning, design and evaluation of public transportation projects, preparing technical studies related to public transportation. A 20% local match is required. Section 5304-funded studies:

- Pueblo of Isleta - Transit Feasibility Study
- North Central RTD - Five-Year Service Plan Update
- North Central RTD - Long Range Strategic Plan
- North Central RTD and City of Santa Fe Consolidation Study
- Las Cruces - Transit Service Plan Update
- Los Alamos Atomic City Transit - Five-Year Service Plan Update
- Rio Metro - Valencia County Transit Facility Study
- Socorro Public Transportation - Fixed-Route Feasibility Study
- Santa Fe MPO - Transit Element of the Long Range Plan

FTA Section 5307 Program - Urbanized Area Formula

This program provides funding for transit operations and capital projects in urban areas with populations greater than 50,000 and less than 200,000, and provides funding for capital projects only in areas with greater populations. The federal share may not cover more than 50% of operations funding, and may not cover more than 90% of the cost of capital projects.

Introduction

FTA Section 5339 Program - Grants for Bus and Bus Facilities

This program makes Federal resources available to states and designated recipients to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities including technological changes or innovations to modify low or no emission vehicles or facilities. Funding is provided through formula allocations and competitive grants. A sub-program provides competitive grants for bus and bus facility projects that support low and zero-emission vehicles. An 80/20 federal/local match for capital purchases is required.

FTA Section 5310 Program - Enhanced Mobility for Seniors and Individuals with Disabilities

This program utilizes funds to ensure transit access via capital investment for seniors and individuals with disabilities. An 80/20 federal/local match for capital purchases is required. Eligible projects must be included in a locally-developed coordinated human service transportation plan. The NMDOT Transit & Rail Division has developed six coordination plans, which are available at the following link: http://dot.state.nm.us/content/nmdot/en/Transit_Rail.html

FTA Section 5311 Program - Formula Grants for Rural Areas

This program provides planning, capital, operating and administrative assistance to public transportation initiatives in non-urbanized areas with populations under 50,000. The program aims to enhance access to health care, shopping, education, employment, public services, and recreation, to maintain, to develop and improve rural public transportation, to develop and support intercity bus service, and to provide for the participation of private transportation operators. Section 5311 funds must be matched by local funds. An 80/20 federal/local match is required for administrative, capital, and planning expenses, and a 50/50 match is required for operating expenses.

The NMDOT Park & Ride network, operated by the New Mexico Department of Transportation, provides express intercity bus service in northern New Mexico and in the Las Cruces region.

Service is provided

in the morning and evening peak periods on weekdays along eight intercity routes. Live tracking of Park and Ride buses is available at <http://nmdotparkandride.transloc.com/>.

New Mexico DOT Park and Ride Facts

- ❖ Low fares (averages 7 cents/mile)
- ❖ In 2018, the average passenger saved up to \$601 monthly by choosing Park & Ride over driving alone in their private vehicle (assuming 64-mile round trip, 54 cents per mile private vehicle operating and ownership cost, and a \$90 monthly pass)

NMDOT Park & Ride Facts

In FY 2017, NMDOT Park & Ride:

- ❖ Reduced traffic congestion by removing an estimated 7.7 million vehicle miles of travel from our busiest highways during the busiest commute hours
- ❖ Reduced carbon dioxide emissions (a Greenhouse Gas) by 3,757 tons
- ❖ Reduced gasoline consumption by 387,383 gallons.

With 115 bus departures daily on eight fixed routes and three shuttle routes, and 240,117 passenger trips provided in FY 2018, NMDOT Park & Ride is the State's fifth largest bus transit system. Since its inception, the service has provided over 4 million trips and driven over 128 million passenger miles without a fatality or serious injury.

The FY18 budget for NMDOT Park & Ride included \$5.6 million of State funds, \$300,000 in Federal funds, \$420,180 from El Paso County, \$120,116.83 from Rio Metro RTD, \$666,185.70 of fare revenues and \$10,600 in advertising revenues for State Fiscal Year 2018 (July 2017-June 2018).

2019 New Mexico Transit Guide

NMDOT Park & Ride operates with 24 fifty-seven passenger buses, including four spare buses.

- **The Blue Route** provides eleven northbound trips and eleven southbound trips between Santa Fe and Los Alamos, also serving Pojoaque. Two afternoon trips from Los Alamos to the NM-599 Rail Runner Express Station.
- **The Green Route** provides thirteen roundtrips between Los Alamos and Española.
- **The Red Route** provides six roundtrips between Santa Fe and Española, also serving Pojoaque.
- **The Orange Route** provides three northbound trips and four southbound trips between Santa Fe and Las Vegas, also serving Rowe and San Jose.
- **The Purple Route** provides four round trips between Los Alamos and the NM-599 Rail Runner Express Station, as well as one trip from Albuquerque to Los Alamos in the morning.
- **The Turquoise Route** provides one round trip between Albuquerque and Moriarty, also serving Sedillo and Edgewood.

- **The Gold Route** provides eleven eastbound trips and nine westbound trips between Las Cruces and El Paso, also serving Anthony.
- **The Silver Route** provides two round trips between Las Cruces and White Sands Missile Range.
- **The South Capitol Station Shuttle** meets three morning northbound arriving and three afternoon southbound departing New Mexico Rail Runner Express trains at the South Capitol Station, as well as most peak direction NMDOT Park & Ride Orange and Red Route buses.
- **The NM-599 Station Shuttle** meets three morning northbound arriving and three afternoon southbound departing New Mexico Rail Runner Express trains at the NM-599 Rail Runner Express Station.
- **The Purple Shuttle** meets the morning northbound Purple Route bus from Albuquerque at the NM-599 Rail Runner Express Station and proceeds to the South Capitol Station and the Santa Fe Depot.

Fares are \$3.00 one-way for all intercity routes except those that serve Española, which have fares of \$2.00 one-way. Monthly passes are available for \$90.00, or \$60.00 for Española routes. System wide monthly passes are also available for \$150.00, and are valid on all routes and the New Mexico Rail Runner Express. Fares for local connecting shuttle routes in Santa Fe are \$1.00 one-way; however, any valid NMDOT Park & Ride monthly pass or Rail Runner Express ticket is valid for travel on these routes.

Regional Transit Districts

The Regional Transit District Act, passed in 2003 by the New Mexico Legislature, authorized the creation of Regional Transit Districts (RTDs) in New Mexico, and outlined their powers and duties. This was followed up the next year by the Regional Transit Gross Receipts Tax Imposition Legislation, which allows member communities of an RTD to increase Gross Receipts Taxes to support transit. Four RTDs have been certified in New Mexico.

North Central RTD

The North Central RTD (NCRTD) comprises the counties of Los Alamos, Taos, Rio Arriba, and Santa Fe, as well as five pueblos. The RTD was certified in 2004 and began service in 2006; in 2008 voters approved a Gross Receipts Tax of 1/8 of one percent. NCRTD operates twenty-four fixed routes and demand response service.

Rio Metro RTD

The Rio Metro RTD (RMRTD) comprises the counties of Sandoval, Bernalillo, and Valencia. The RTD was certified in 2005 and began operations in 2008; the same year, voters approved a Gross Receipts Tax of 1/8 of one percent. Rio Metro operates NM Rail Runner Express commuter train, commuter bus, fixed-route local service that connects to rail stations, demand response service in Valencia County and the City of Rio Rancho, and demand taxi service in Bernalillo County.

2019 New Mexico Transit Guide

Veterans Transportation and Community Living Initiative

The Veterans Transportation and Community Living Initiative (VTCLI) is a nationwide initiative. It is a coordinated partnership between NMDOT, NM Department of Veteran Services, and transit agencies in New Mexico that will make it easier for U.S. veterans, active service members, military families, and others to learn about and arrange for locally available transportation services that connect them with work, education, health care, and other vital services in their communities. Drawing on existing federal resources, and in consultation with advocates for veterans and people with disabilities, projects are funded in urban, suburban, and rural communities around New Mexico to strengthen and promote "one-call" information centers and other tools that conveniently "connect the dots." As a result, these deserving men and women and their families may quickly and conveniently turn to trusted sources who have been specially trained to help them access local transportation options and other support services, ranging from workforce training to food pantry locations.

Veterans Transportation Services

Disabled American Veteran (DAV) Transportation

DAV operates a fleet of vehicles around the country to provide free transportation to VA medical facilities for injured and ill veterans. DAV stepped in to help veterans get the care they need when the federal government terminated its program that helped many of them pay for transportation to and from medical facilities. The vans are driven by volunteers, and the rides coordinated by almost 190 Hospital Service Coordinators around the country.
